

Lincolnshire
Primary Care Network Alliance

Purpose

We support PCNs to: Increase general practice resilience and ensure sustainability, whilst improving the healthcare of their local population.

We enable and encourage collaboration between PCNs.

We identify opportunities for PCNs to work at scale outside of the PCN DES, to benefit our population and ensure stability of general practice.

We are the voice of PCNs in the system to influence outcomes (alongside other primary care leaders).

We raise the profile of PCNs and PCN Alliance in Lincolnshire.

We are a collective vehicle for Population Health Management (PHM) across Lincolnshire. (PCNs - responsible and accountable for PHM).

Vision

PCN Alliance supports PCNs to thrive and achieve their objectives.

We work alongside the LMC and other partners to ensure general practice resilience.

As an equal and valued partner the PCN Alliance collaborates with health and care partners to improve the health and wellbeing of our population.

We draw strength from the intelligence of local networks, respecting their autonomy and the different needs of their population.

We address inequalities, working together with transparency to ensure that resources flow to where they are most needed.
